MANNINGTON LAMINATE HAS BRILLIANT INTRODUCTION

January 28, 2008 – Wonderfully radiant, opulent and durable, the Diamond Bay Collection is Mannington Mills' stunning new addition to its laminate offering.

Beaming with a unique lustre and shine, and clarity not found in any other laminate floor, Diamond Bay brings the beauty of a high gloss hardwood look to laminate.

A "kissed" micro-bevel, which, research shows, appeals to a wider range of consumers, sets off the brilliant shine and clear graining in each of the four patterns:

- *Kingston Mahogany*, a handsome pattern that crosses over from traditional to contemporary, comes in two colors, Caribbean Sunrise and Jamaican Brown.
- *Brazilian Cherry*, which is common but never ordinary, exudes exotic beauty in Natural, Rio Red, and Samba Brown;
- *Moroccan Plum* takes advantage of the popular fruitwood trend, enhancing the colors with Golden Kasbah and Marrakech Brown; and
- Hawaiian Koa in Aloha Gold, Island Sand, and Kona Blend features lustrous cross-fire graining with iridescent qualities.

All four patterns in the Diamond Bay Collection feature OpticEdge™, Mannington's exclusive, patent pending technology that allows for superior styling and a higher level

of pattern realism. They also include the exclusive Diamond Finish – which provides exceptional shine and diamond-hard durability.

A perfectly clear winner in the flooring marketplace, the Diamond Bay Collection will be available at fine flooring retailers in April 2008.
