

Jumpstart RE A Better Floor, For A Better World

Introducing Jumpstart RE, the next Mannington product specifically engineered to reduce waste to landfill. Jumpstart RE's unique felt backing is manufactured using over 8% total recycled content. Consumers get the same great performance of Jumpstart® with a lower impact on the environment.

- Uses over 8% recycled content (4% post consumer)
- Contributes to LEED and other green building systems
- Certified to FloorScore, assuring good indoor air quality characteristics
- Same great price

In addition to being eco-savvy, Jumpstart RE retains all of the superior performance characteristics of Jumpstart®. It features Guardian Protection™ to minimize rips, tears and gouges; and ScratchResist™ for superior resistance to everyday wear and tear.

An eco-revelation, Jumpstart RE is "a better floor, for a better world."
